

# Corporate profile Nuscience Group

'Animal health care and raw material availability & cost will be the problems to solve in a global market. Our aim is that Nuscience will be the preferred animal nutrition solutions provider. Using our vast nutritional knowledge and innovation driven attitude, Nuscience creates products that are of great added value to our customers. This is achieved by the outstanding technical performance and cost effectiveness of our animal nutrition products.'

# Knowledge partner in nutrition and health

---

Nuscience Group is the key partner for feed manufacturers worldwide. We are a global player in premixes, concentrates, mineral feed, nutritional concepts and feed additives in the animal nutrition industry. With our common technical know-how, our common knowledge of the market, our top products and customer relations, we have build a strong international position as Nuscience Group. It is our ambition to continue and accelerate the growth of the last years.

Our innovation-driven attitude enables us to supply sustainable and economically viable solutions for the efficient production of animal feed and feed ingredients. Nuscience Group prides itself on always giving its stakeholders more than they expect.

The Nuscience Group has oriented its customer-focused organization on offering a wide range of products for feed mills, integrators and home-mixers. Quality and top performance are guaranteed by our commitment to being the knowledge partner of choice in animal nutrition and health.

---
